CORONAVIRUS
COVID-19

Why choose Quark Antiviral PPE Kit?

- Are you sure when you touch your PPE Kit, the surface is free of Corona virus?
- Normal PPE Kit blocks the virus but does not inactivate the virus.
- We use antiviral & antibacterial additive in masterbatch in the production of PP Spun bond non-woven fabrics. (Not a surface treatment / coating) thus it has an antimicrobial efficiency for long time
- Quark Antiviral PPE Kit is anti-viral as per ISO 18184 and anti-bacterial AATCC-100 up to 99 % inactivation of microorganisms Within 5 minutes of contact.
- Self-sanitizing .• Safe to use. Non-toxic .• Anti-odour properties.
